

“CHALLENGE YOURSELF, REACH THE TOP”

The Reason for developing ClimbStation™

ClimbStation brings the great hobby of indoor climbing closer to consumers in a way that is both safer and more economical because workout with the equipment does not require a specific supervisor, booking or even a high-ceiling space. ClimbStation will provide each user a suitable level of difficulty, and it enables warm-up or aerobic climbing, with ClimbStation you can also measure your strength and see your results on the screen.

Climbing will improve physical condition like strengthening the deep stomach muscles and back muscles, which are normally difficult to practice, and at the same time increasing overall endurance and muscle strength just as “genuine” climbing does.

– Kaarle Vanamo, Inventor

“Exciting, Challenging and Fun...
This is ClimbStation”

COMPANY

Joyride Games Oy (Ltd) is a Finnish company that developed and patented this unique computer-controlled climbing wall under the ClimbStation™ trade name.

DISCOVERY CHANNEL TESTED CLIMBSTATION AT BEYOND TOMORROW TV SERIES

“GREAT WAY TO STAY IN SHAPE AND HAVE FUN AT THE SAME TIME”
– ANNA CHOY, THE PRESENTER

Climbing for everyone!

Perfect for beginners, climbing enthusiasts, professional competitors and as a daily routine to keep in good physical condition. ClimbStation provides real climbing with functions that amazes you!

Convenient and fun. Just select the climbing level and start climbing.

ClimbStation can be used in various locations and businesses

- As a fitness equipment or climbing training equipment
- An attraction, thus increasing the revenue of other venues too
- Expanding business or product portfolio
- Marketing and event promotion

ClimbStation is compact and mobile

Fast set up and small footprint. This product brings your business a big sports activity in a rather small area. (2 x 4 meters and less than 4 meters high) ClimbStation has the benefit and freedom of doing climbing also at events and marketing campaigns. Easy to use, high capacity, no need for harnesses or special instructors. Test ClimbStation at your facility and see the results immediately.

Business opportunity

Depending your business concept and goals, whether you like to offer it promotional or at separate pricing. ClimbStation has a good return on investment. To see the business potential in numbers, go to ClimbStation website (www.climbstation.com) and see our business calculator. Choose your business model (site type), type your estimated figures and press "calculate". Contact ClimbStation dealer for more information about rental, leasing and other purchasing opportunities.

About the touchscreen user interface

There are 12 levels to choose from. It will guide you the way from start to finish. You can monitor speed, time, length, level, calories consumption and as for the owner it is even possible to check the status monitor, how many tracks climbed and how many hours ClimbStation has been in operation. ClimbStation can also be set to a fully automatic mode, where you don't need to press any buttons - just go to the wall and start climbing. When you finish or fall down, ClimbStation will stop automatically and start the track from the beginning for the next climber to go! An excellent function especially for events and resorts when high capacity is vital.

Delivery time:

8 - 12 weeks manufacturing time + freight time (Finland)

Warranty:

24 months

Features:

- 150 cm wide and about 6,5 meters long climbing area. (climbing belt)
- 90 Handholds as a factory setup. (handholds can be changed, added or removed)
- ClimbStation has a wide range of climbing angle (+10 – -45 degrees)
- Maximum speed 17 meters per minute
- Convenient transportation and low maintenance
